**WeatherHawk and VISTA ENGINEERING announce Distribution Agreement for Iceland.**

Logan, UT – 02/19/2003 – Today, WeatherHawk jointly announced with Vista Engineering, a distribution Agreement for Iceland, covering the WeatherHawk family of WIRELESS weather stations.

WeatherHawk weather stations provide the educator, farmer, environmentalist, plant manager, consumer and weather enthusiast with a cost effective, easy to use solution to weather information needs. Both directly connected and wireless versions of this rugged fully configured and optionally internet connected weather station are available for immediate delivery.

The Agreement with Vista Engineering provides WeatherHawk with immediate entry to markets that are traditionally challenging for U.S. companies due to product promotion and support requirements. Vista Engineering, is a well established, respected supplier of a wide range of environmental measurement products and systems in Iceland. Andres Thorarinsson, CEO of Vista Engineering, states that WeatherHawk adds a new range of weather related products to those currently offered by his company. WeatherHawk enables Vista Engineering, to now serve the needs of educators, consumers, weather enthusiasts and light industrial users, in addition to its current range of scientific and professional environmental monitoring system customers. Vista Engineering has immediately invested in equipment to support sales of WeatherHawk throughout Iceland.

WeatherHawk is manufactured in the United States, and supported worldwide through a combination of affiliated companies and independent dealers. Please contact WeatherHawk or Vista Engineering, as indicated below for additional information.
