

**For Release 9 a.m. PST
January 11, 2003**

WeatherHawk and Taiyo Keiki Co, Ltd. announce Distribution Agreement for Japan.

Las Vegas, NV – 01/11/2003 – Today, at the Consumer Electronics Show (CES2003), January 9-12, 2003, in Las Vegas, NV, WeatherHawk jointly announced with Taiyo Keiki Co., Ltd., a distribution Agreement throughout Japan for the WeatherHawk family of WIRELESS weather stations.

WeatherHawk weather stations provide the weather enthusiast, educator, plant manager, or environmentalist with a cost effective, easy to use solution to weather information collection needs. Both directly connected and wireless versions of this rugged fully configured and optionally internet connected weather station are available for immediate delivery.

The Agreement with Taiyo Keiki Co. Ltd. provides WeatherHawk with immediate entry to markets that are traditionally challenging for U.S. companies due to product promotion and support requirements. Taiyo Keiki Co. Ltd. is a well established, respected supplier of a wide range of environmental measurement products and systems. Akira Umetani, for Taiyo Keiki Co. Ltd. states that WeatherHawk adds a new range of weather related products to those currently offered by his company, enabling Taiyo Keiki Co. Ltd. to serve the needs of weather enthusiasts and light industrial users, in addition to its current range of scientific and professional system customers. Taiyo Keiki Co. Ltd. has immediately invested in demonstration equipment and will complete product training before the end of February 2003 to enable the company to immediately sell and support WeatherHawk in Japan.

WeatherHawk is manufactured in the United States, and supported worldwide through a combination of affiliated companies and independent dealers. Please contact WeatherHawk or Taiyo Keiki Co. Ltd. as indicated below for additional information.
